

**Affordable Computer Repair  
Performed by LOCAL Experienced &  
Certified Technicians**

**IntegrityNETworx** has been serving small businesses and individuals in Southwest Florida since 2002. **Our technicians collectively possess over 25 years experience repairing Personal Computers.**

We understand how crucial it is that your PC is available and works when you need it . **We also understand that your documents and data are irreplaceable.** That is why you can not AFFORD to trust just anybody with the job of maintaining and repairing your PC. Certainly the big box stores offer computer repair services, but you will not find the level of experience offered by IntegrityNETworx nor the attention to detail and care that is taken when it comes to protecting your data. Remote support is provided by LOCAL Southwest Florida based technicians, not outsourced to India. You will talk to and be served by qualified, knowledgeable staff each and every time.

**Conveniently located at the Naples Municipal Airport. Enter the airport directly across from Radio Road. Turn left on Aviation Drive South and turn right into the London Aviation Complex. We are located in building 100 Suite 102.**
